

Neurological Physiotherapy Satellite Clinic

Blenheim

March 16th to 18th 2017

- Do you know that exercise is neuroprotective?
- Do you know what the BEST exercise is for you?
- Are you living with a neurological condition?
- Have you recently been diagnosed with a neurological condition or living with your condition for a while?
- Would you like to receive some intensive therapy input?

This unique and rare opportunity for all those with a neurological condition to maximise your potential to access expert neurological physiotherapy input. You will be assessed, educated and provided with an individualised tailored program specific to you and your neurological condition. This will assist you in reaching your goals and improving your life. It also offers you the chance to book an intensive package over the three days to maximize your progress.

Gilly Davy will also be proving an evening lecture for the public on Thursday 16th March. Visit the website to stay informed.

Gilly Davy is an inspiring senior neurological physiotherapist with over 12 years of experience. She has treated thousands of neurological clients and worked in leading neurological rehabilitation clinics in Sydney and Auckland. Gilly has vast experience in treating a wide range of neurological conditions and has a passionate proactive approach. She was awarded the 2015 Australian Physiotherapy Association Special Commendation in Achievement in Neurological Physiotherapy.
